

FULL RANGE BOMB

HUDSON ELECTRONICS, UK

Parallel boosts with switchable fuzz based on the vintage Maestro FRB-1. Great for driving amps and tweaking your sound also ace used after other fuzz pedals to sculpt and corrupt your tone.

INST - Plug your guitar or instrument in here.

AMP - Plug your amplifier in here.

LEFT FOOT SWITCH - Toggles between the bypass mode and the effected signal

RIGHT FOOT SWITCH - Toggles between clean and fuzz setting when the effect is engaged

LEVEL - Controls the overall volume of the fuzz.

TREBLE - Boosts the treble frequencies.

UPPER MIDS - Boosts the upper mid range frequencies.

MIDS - Boosts the mid range frequencies.

BASS - Boosts the bass frequencies.

DC SOCKET - If using the pedal with a DC power supply unit (PSU) please ensure it is a 18v regulated 2.1mm negative centre type. Any other type may damage your pedal. This pedal has a negative ground so may share (daisy chained) a PSU with other negative ground pedals

To preserve battery life please unplug the input jack when not in use. To replace batteries completely unplug the unit then remove the base plate. Please note this pedal requires two 9v PP3 type batteries.
